

Automation

It's not anyone's idea of fun to battle the elements on a dark, stormy winter's night, grappling with the keys to open your garage door. Imagine arriving home and at the simple touch of a button, driving straight into your garage without having to leave the comfort of your car. Our range of electric door operators can bring you this touch of luxury at a surprisingly low cost. Choosing to fit one of our operators won't change your life. But it will make it just a little bit more comfortable.

GaraMatic operators and Garador garage doors are a tried and tested unit hardware, perfectly matched and prepared for easy installation.

For your safety all GaraMatic operators of course comply with the latest European standards (BS 13241) such as automatic reversal and self-monitoring closing forces. Security is provided by the integral anti-burglar device preventing the door from forced unauthorized entry.

Two hand transmitters as standard ✓

Hand transmitter (4-channel)

Hand transmitter micro (2-channel)

All Garador operators come with a comprehensive 5 year warranty.

Arrive home safely, securely ... and in style

The combination of Garador garage doors with GaraMatic operators complies with the latest European safety standards.

Accessories

Wall consoles and push buttons are extremely practical if you want to operate the door and control different functions from a fixed location without the use of a hand transmitter.

Wall console
(for GaraMatic 10 and 20 only)

Wireless wall console

Push button,
illuminated

Push button

Key switches allow you to activate your automatic operator at the turn of a key. They are suitable for recessing into masonry or face-fixed mounting to your garage wall.

Face-fixed key switch

Recessed key switch

Light beam device

The light beam device provides additional peace of mind to the safety of your garage door. Should any obstruction interrupt the light beam while the door closes, the operator stops the door immediately and raises it.
