Simplicity 35
Top of the Range Canopy, Carport and Veranda solutions

The Simplicity 35 has been carefully designed by the UK’s leading aluminium extrusion specialist to offer unbeatable durability and versatility. Featuring 35mm polycarbonate roof panels and a robust all-aluminium frame and guttering system, Simplicity 35 structures can be installed to any length with a projection of up to 6 metres. This expertly designed product also features the simplest fixing system possible, enabling fast and trouble-free installation.

The Simplicity 35 creates effective shelter from the rain and snow and offers high UV protection. Its unique design also allows it to fix easily around corners and alcoves to offer complete uninterrupted cover.

The Simplicity 35 is ideal for a variety of applications including:

- Veranda and Garden Canopies
- Walkway Canopies
- Carports
- Covered Play Areas
- Alfresco Dining Areas
- Outdoor Sales/Display Area
- Sheltered Storage Space

The Benefits of Simplicity 35:

All – Aluminium System: The Simplicity 35 is only manufactured from aluminium to offer exceptional longevity and easy maintenance

Robust Roof System: The roofing system is strong enough to be walked on, with the use of boards, so that it can be used as a means of escape and maintenance

Full 10 year guarantee and a 25 year life expectancy: We used the highest grade of materials possible to ensure Simplicity 35 structures are built to last

Impact resistance: Our 35mm structured Polycarbonate has been independently tested and is guaranteed to withstand (simulated) conditions produced using a 20mm diameter shot travelling at 21 m/s.

Superior wind and snow loading capacity: The Simplicity 35 polycarbonate is block edged to give a hard edge on both sides of the panel – which provides a much stronger roof system for improved snow loading capabilities.

System Features:

✓ Large Projection – Projection of up to 6 metres to create large shaded areas if required
✓ High UV protection – A layer of UV absorber on the panels protects those underneath from the sun and prevents the panel yellowing and losing strength.
✓ Integral Aluminium Guttering - saves time on installation and creates an attractive, sleek design that is also stronger than an external gutter system
✓ Simple fixing system with minimal parts – for quick and easy installation
✓ 35mm structured Polycarbonate roofing – available in clear, opal and bronze
✓ Wide range of colour options – The Simplicity 35 framework can be finished in any RAL colour. A range of Designer Finishes are also available.
✓ Victorian Upgrade available – Add stylish ornate Victorian styled posts to the structure to fit with more traditional settings.
