The VALIANT
GRP Garage Door
RANGE GUIDE

Proudly made in
the UK
Wessex Doors is Europe's largest manufacturer of low maintenance GRP (Glass Reinforced Polyester) garage doors and a leading innovator in the field of garage door design.

The Valiant Range of standard size single and double garage doors meets the increasing demand for a comprehensive range of budget-conscious doors for retail and trade customers.

GRP is an incredibly strong, dent resistant modern composite laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks. All doors are supplied fully finished, won't warp, shrink or rust and are virtually maintenance free. Doors are built onto a strong, corrosion protected steel chassis that provides a protective “picture frame” edge all around the door panel.

For details of additional ranges available from Wessex Doors please see our main Range Guide or visit www.wessexdoors.co.uk.

Valiant GRP Garage Doors

More like wood than wood!
Wessex uses the finest softwood timber masters to create moulds with enhanced grain and detailing that no exterior grade timber can match. The hand applied antiquing completes the transformation into a door that looks just like wood but with the added benefit of minimal maintenance!

Or Super Gloss!
The Wessex Gloss Range combines a high gloss surface, crisp, clean panel definition with traditional and exclusive styling that requires just a wipe over to keep its good looks.

GRP - A Unique Material
Not only is G.R.P. tough, it is also excellent at resisting the ravages of the weather, even in coastal locations.

The corrosive effects of salt laden air can be easily seen in rusting gates, door hinges and garage doors. G.R.P. eliminates corrosion and the benefits inland are just as convincing – minimal maintenance! G.R.P. is the material of choice for the sailing industry – look how many GRP yachts are out there!

Make G.R.P. your choice for a new garage door...

Woodgrain Designs

- **CANTERBURY (widegrain)**
- **LANGLEY (closegrain)**
- **PURBECK (closegrain)**
- **SHERWOOD (widegrain)**
- **WARWICK (closegrain)**
- **YORK (widegrain)**
- **York Side Hinged (widegrain)**
- **Ripon Side Hinged (widegrain)**

**Finished To Perfection**

Hand finished by craftsmen, woodgrain doors are “antiqued” to reproduce the natural subtlety of timber. Please advise if doors are to be fitted side by side to allow doors to be finished as a pair. Each door is unique, however pairs will be matched as closely as possible for density of colour and tone.

**Woodgrain Colours**

- White
- Magnolia
- Bleached Oak
- Red Mahogany
- Dark Mahogany
- Light Oak
- Dark Oak
- Honey Beech
- Teak
- Rosewood
- Golden Brown
- Ebony
- Blue
- Green
- Red
- Anthracite Grey

www.garagedoorsonline.co.uk 01926 463888 www.garagedoorsonline.co.uk
Every door is built onto a steel chassis that provides a neat edge to the door panels and gives the door strength and rigidity. The chassis is available in white, brown or black (frames are also available to match). Up and over doors feature a black locking handle that operates the twin locking rods. Side hinged doors have a black lever handle that operates a locking latch to the active leaf, whilst the inactive leaf is secured by a shoot latch bolt.

The rear face of Valiant up and over doors is white (as shown left) with the chassis in white, brown or black. The rear face of side hinged doors is white as standard or brown as an optional extra, with the chassis in white, brown or black.

Strength & Security

Valiant doors feature a choice of canopy or retractable lifting gear. Retractable gear’s cranked lifting arms give full drive-through width at wing mirror height for most saloon cars. The further option of a powder coated or steel frame for ease of fitting provides a complete ‘low maintenance’ solution.

Windows

Windows are available in mock black, stippled and clear with the option of border, diamond or square leading. Windows are available on doors marked.

<table>
<thead>
<tr>
<th>Plain Black Mock Windows</th>
<th>Stippled</th>
<th>Clear</th>
</tr>
</thead>
<tbody>
<tr>
<td>Border Leading</td>
<td>Diamond Leading</td>
<td>Square Leading</td>
</tr>
</tbody>
</table>

Optional Pre-Fitted Frames

Single doors are available with the option of a pre-fitted steel frame (doors over 8’0” wide are supplied with frames as a kit) that provides simple installation and a stable platform for door operation. Canopy door frame uprights are 60mm wide as standard and the head is 60mm high. Retractable door frame uprights are 75mm wide as standard and the head is 60mm high.

Frames have an exterior powder coating available in white, brown, or black. Please specify the colour required when ordering.

Up & Over Sizes

All styles are available in standard sizes to suit most popular openings - see below. For other sizes please call.

Remote Control

Retractable gear is ideally suited to the installation of remote control electric operation, adding convenience, safety and security. AutoOver DC openers are a dedicated partner to the Wessex Door range. Two versions - the DC700 and DC850 - power the range, both are Homelink compatible.

DC700:
- Smooth DC motor featuring 'soft start-soft stop' for improved safety and quieter closing.
- Smart Entry System automated force setting.
- Patented Reference Point Technology means the opener always knows the precise position of the door and constantly measures and monitors forces for ultimate safety and sensitivity.
- Doorsafe monitoring feature constantly measures the door's performance and activates the safety systems should the door begin to operate outside the force safety envelope.
- Energy saving circuitry reduces running costs.
- Anti-theft backdrive feature gives further protection against unauthorised entry.
- Suitable for doors up to 4267mm wide x 2286mm high (14'0" x 7'6").

The DC850 shares all the features of the DC700 but has a more powerful motor. It also allows an intermediate close position to be programmed and an adjustable interval for the courtesy light. This operator is suitable for all sectional doors.

Versatile options allow controls to be tailored to suit your access requirements.

**Guarantee**

(a) Wessex garage doors are guaranteed against any form of manufacturing defect for a period of 2 years from the date of original purchase.*

(b) Wessex electric operators are guaranteed against any form of manufacturing defect for a period of 2 years for mechanical elements, motors and transformers and for a period of 2 years for other electronic and radio equipment.*

(c) The Exterior finish is guaranteed to provide an effective weatherproof membrane that will resist perforation of the substrate from the weather side due to corrosion for a period of 2 years.*

(d) Colour change or fade to the exterior surface will be limited and uniform for a period of 2 years.*

*Terms & conditions apply - see price list or www.wessexdoors.co.uk for full details.

---

**General Information**

- **Handle Positions**: These will vary between canopy and retractable doors of the same style and between doors of different heights of the same style with the same gear.
- **Glazed G.R.P. Doors**: All window design doors are fitted with standard black opaque windows, which cannot be seen through. Clear and stippled translucent windows are available as options on all these doors.
- **End Stiles**: Width of end stiles will vary between doors of the same style of different widths - see our website for further details and calculations.
- **Photography**: All door images in this publication are of 7'0" x 7'0" (2134mm x 2134mm) sized single doors.
- **Colours**: Colours shown in this publication are for guidance only. For accurate colours please request to see a current sample.
- **Translucency**: Translucency of the door panel may vary when viewed from the inside on a bright day due to variations in laminate thickness. This does not represent a manufacturing defect and overall performance is not affected.
