

## Carteck Side Hinged Insulated Steel Garage Doors – The Bespoke Garage Door

Carteck insulate side hinged garage doors are manufactured using the tried and tested panels as used in their popular sectional garage doors and the strength of the panels provides a basis for many variations in furniture, windows and other design elements.

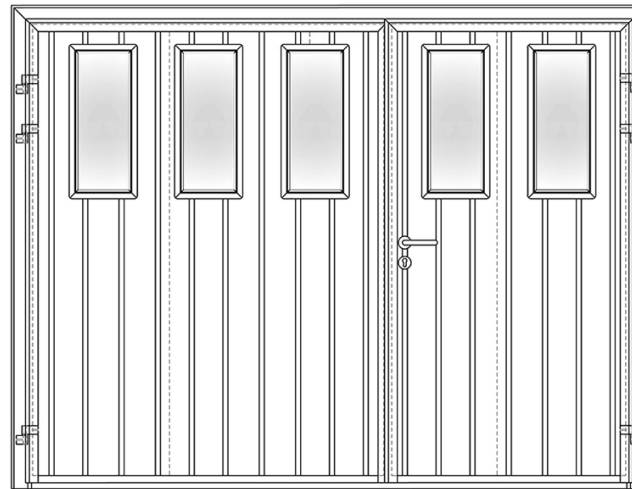

Below are some recent doors manufactured, and the designs were bespoke for customers.

For a specific design or drawing for your approval please call or email and we will be glad to assist.

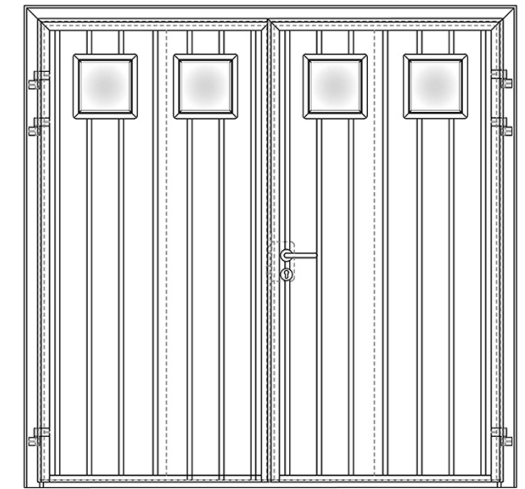

A wide range of standard options are readily available in our online shop facility.
