Thermo65 style 700 in Decograin Golden Oak, with side elements
There's no place like home

What's better than coming home after a long day at work and enjoying family life? You can eat, play board games and watch TV together. To be able to enjoy time with your loved ones, you have to feel safe and at ease in your own four walls.

Hörmann Thermo65 and Thermo46 entrance doors will help you with that. Our high-quality construction components feature excellent thermal insulation values, reliable security equipment, a large selection of styles and an attractive price-performance ratio. You are sure to find a Hörmann door that meets your demands on the following pages.

Thermo65 style 750 in Decograin Titan Metallic CH 703, with side elements ▶
“A good reputation must be earned.”

August Hörmann

In keeping with the tradition started by the company’s founder, the name Hörmann delivers brand name quality with extensive product expertise. The family business has over 80 years of experience as a construction component specialist and sees itself as your partner from the very beginning of building and renovation projects. It’s no surprise that Hörmann is one of Europe’s most successful entrance door providers. All this makes Hörmann entrance doors a reassuring purchase.

1 Quality products from Germany

The entrance door construction is developed and manufactured by Hörmann. Our highly qualified employees work intensively on new products, continual further developments and improvements to details. The results are patents and unique products on the market. Endurance tests under real conditions ensure mature series products with Hörmann quality.
We are convinced of our products and our uncompromising quality assurance. This is why Hörmann issues a **5-year guarantee** on all Thermo65 / Thermo46 entrance doors.

Hörmann is setting a good example. This is why the company obtains **100% of its required energy from green sources**. At the same time, many tonnes of CO₂ are saved each year thanks to the introduction of an intelligent and certified energy management system. And last but not least, Hörmann offers products for sustainable construction.

* The complete warranty conditions can be found at: www.hormann.co.uk
GOOD REASONS TO TRY HÖRMANN

4 Door leaf without visible leaf profile

Thermo65 and Thermo46 doors make for an exquisite and elegant reception – whether you use them for a main or a side entrance. The shapely door leaf with its solid interior and exterior and the leaf profile on the inside fulfils the highest design requirements. The interior view (shown on page 30) harmonises perfectly with your residential internal doors.

5 High thermal insulation

With U-values up to approx. 1.1 W/(m²·K)*, Thermo46 entrance doors provide excellent thermal insulation for your home. Thermo65 entrance doors feature a U-value of up to approx. 0.87 W/(m²·K)* for even better thermal insulation. As a result, you save energy in the long term while also protecting the environment.

* Dependent on door size. Specified values for RAM 1230 x 2180 mm.

Doors of other manufacturers have a disturbed exterior and interior appearance owing to a visible leaf profile.
For you and your family, being able to rest easy in your own home is important. This is why our Thermo65 / Thermo46 doors are equipped with multiple-point locking as standard.

For even more security, many Thermo46 door styles as well as many Thermo65 entrance doors (including with side elements and transom lights) are optionally available with break-in-resistant RC 2 security equipment.

When it comes to industrial safety and burglar protection, Hörmann entrance doors fulfil the highest demands. The 8-mm-thick laminated safety glass on the exterior of the insulated glazing provides maximum security. In case of breakage, the glass splinters are bound and stay adhered to the plastic film on the inside, virtually eliminating any danger of being injured by the shards. Furthermore, the laminated safety glass offers better protection against burglars as it makes reaching through more difficult.
Steel / aluminium entrance door Thermo65

Thanks to the solid door view from the inside, the high-quality Thermo65 doors perfectly match the timber internal doors of your home. You can enjoy the same door view of doors made of different materials for many years to come.

**Construction**

- Solid, 65-mm-thick steel door leaf with leaf profile on the inside and thick rebate for an elegant door appearance
- Leaf profile made of composite material with thermal break for high stability and thermal insulation
- 80-mm aluminium frame with thermal break and 20-mm-high aluminium/plastic threshold rail with thermal break ensures excellent thermal insulation
- Triple sealing offers optimal protection from rain, wind and dirt
- Triple-pane insulated glazing with safety glass on both sides virtually eliminates all risk of injury in the event of breakage
- Optional RC 2 security equipment for extra security**

Fulfils all requirements of the energy saving regulation

Suitable for fitting without thermal bridges

$U_p$-value up to approx. 0.87 W/(m²·K)*

* Approved by IFT

Steel / aluminium entrance door Thermo46

All Thermo46 doors are delivered with a solid door leaf to give your entrance doors and residential internal doors a uniform view from the inside.

Construction

• Solid, 46-mm-thick steel door leaf with leaf profile on the inside and thick rebate for an elegant door appearance
• Leaf profile made of composite material with thermal break for good stability and thermal insulation
• 60-mm aluminium frame with thermal break and 20-mm-high aluminium / plastic threshold rail with thermal break ensures good thermal insulation
• Double sealing offers good protection from rain, wind and dirt
• Double-pane insulated glazing with safety glass on both sides virtually eliminates all risk of injury in the event of breakage
• Optional RC 2 security equipment for extra security**

Fulfils all requirements of the energy saving regulation

Suitable for fitting without thermal bridges

The entrance door that makes you feel welcome

If you would like to equip your main entrance with an attractive, high-quality door, Hörmann’s Thermo65 entrance door is the right choice for you. The solid 65-mm-thick steel door leaf with PU rigid foam infill and the leaf profile on the inside made of composite material keep the cold out. With a UD-value of up to approx. 0.87 W/(m²·K), Thermo65 doors feature excellent thermal insulation. As standard, the doors are equipped with a 5-point security lock, allowing you to feel safe and secure in your home. Thermo65 styles are optionally available with RC 2 security equipment to make you feel even more secure in your own four walls.

Standard colour Traffic white RAL 9016, silk matt, stainless steel handle HB 14-2, Cathedral glass

Style 400 in preferred colour Terra brown RAL 8028, with side element
Reassuring security

5-point security lock

You will feel safe at home: 2 conical swing bolts 1 engage with 2 additional security bolts 2 and 1 lock bolt 3 in the frame’s lock plates and pull the door tightly shut. The lock plates on Thermo65 doors are adjustable for an optimal door setting. Thanks to the soft-lock latch 1, the door closes very quietly.
Securing the hinge side
Being able to rest easy in your own home is important, which is why your Thermo46/Thermo65 door is secured additionally on the hinge side, making it practically impossible to force the door open.

5 Thermo46
With 3 security bolts

6 Thermo65
With continuous security strip made of aluminium

7 Perfectly hung with 3-way adjustable guide rollers
Sturdy, two-part 3-way adjustable hinges with safety pins and stainless steel decorative covers guarantee smooth door function.

8 Interior lever
Each door comes with a beautifully shaped stainless steel interior lever as standard.

9 Exterior rose escutcheon
Thermo65 and Thermo46 doors come with a stainless steel exterior rose escutcheon as standard. The security sliding rose escutcheon for Thermo65 doors makes it more difficult to manipulate the locking cylinder, making it ideally equipped in terms of security.

10 Profile cylinder
Delivered with 5 keys as standard. With emergency and hazard function, i.e. the door lock can still be operated when the key is inserted on the inside.
Custom equipment

Automatic lock with mechanical self-locking
When the door falls shut, the bolts automatically extend and securely lock the entrance door.

Automatic lock with electric motor
Open your entrance door easily and conveniently via multiple-point locking using a hand transmitter or radio finger-scan. There’s no longer any danger of forgetting your keys. Your entrance door automatically unlocks via an electric motor. You can then push the door open.

1 Hand transmitter HSE 4 BS black textured surface with black plastic caps
2 Radio finger-scan FFL 12 BS

Electric strike (not shown)
With the electric strike catch, you can conveniently open your door via a switch inside the house. Alternatively, e.g. during the day, you can also toggle the locking lever so that the entrance door can be opened by a slight push from the outside.

Door drip (not shown)
Attractive protection: The door drip in Traffic white RAL 9016 or in a stainless steel look diverts driving rain and is easy to retrofit.

Retractable bottom seal (not shown)
■ NEW This optional equipment is the best solution for sealing Thermo65 entrance doors without threshold rail used for barrier-free entrances.

The 80 mm aluminium frame with thermal break and PU foam infill is available in either a round-style or rectangular profile, without surcharge.

The options below are for the Thermo46 styles 100, 200 and 400 only:

1
2 Letter plate (shown in silver)
3 Spy Viewer
For doors without windows (Optional extra)
Glazings for doors

**Thermo65**
With triple-pane glazing
Style 700 / 750 / 800 / 810 / 820 / 850 / 900

These styles offer a nearly solid look on the inside and outside. The stainless steel glazing frame complements the elegant overall appearance. Insulated glazing is convincing when it comes to saving energy thanks to high thermal insulation values.

**Thermo46**
With triple-pane glazing
Style 700 / 750 / 900

These doors are equipped with insulated glazing, guaranteeing excellent thermal insulation. A modern, harmonious overall door appearance is created with a round-style plastic glazing frame. With Decograin surfaces, the glazing frame is painted in a colour complementing the surface finish.

**Thermo65**
With double-pane glazing
Style 020 / 025 / 030 / 040

**Thermo46**
With triple-pane glazing
Style 410 / 430 / 450

**Thermo46**
with double-pane glazing
Styles 200 / 400

Panelled door styles are a stylish way to present your home with their perfectly matching profile-style plastic glazing frames. When it comes to thermal insulation, insulated glazing gives you everything you could want from a high-quality Hörmann entrance door.

**Thermo65**
With triple-pane glazing
Style 600

The black contrast frame gives the surface-mounted glazing an elegant appearance. Insulated glazing also ensures high thermal insulation, as you would expect in a modern entrance door.

Glazings for side elements and transom lights

Thermo46 doors are supplied with side elements and transom lights with double-pane insulated glazing, Thermo65 doors with triple-pane insulated glazing.
A beautiful handle accents the door: select your desired handle

As standard, all doors come with the exterior handles shown in the product photos (from page 14). Alternatively, you can select a different handle made of stainless steel.

Lever handle sets for outside and inside

- Stainless steel lever handle set Type D-110 (standard)
- Stainless steel lever/knob handle set with knob type D-110
- Stainless steel lever handle set Type D-210
- Stainless steel lever handle set Type D-310
- Stainless steel lever handle set Type D-510
- ES 0/ES 1 lever/knob handle set with knob (shown: ES 1 in stainless steel)
- Lever handle set ES 0/ES 1 (shown: ES 0 in stainless steel)
Stainless steel embellishments beautify your entrance

Design the exterior of style 010 using these attractive stainless steel embellishments. The embellishments are available for Thermo65 and Thermo46 door versions and for all door colours or decors.
Find your favourite colour

Do you prefer a subtle Window grey or would you like to show your true colours with Ruby red? When choosing a colour for your new Hörmann entrance door, we let your creativity run wild. You can choose between the particularly inexpensive Traffic white RAL 9016 and 16 additional preferred colours*. The interior and exterior of your Thermo65 or Thermo46 doors are always the same colour. Simply contact your Hörmann partner.

In low-cost Traffic white as standard

1. RAL 9016 Traffic white
2. RAL 9007 Grey aluminium
3. RAL 9006 White aluminium
4. RAL 9002 Grey white
5. RAL 9001 Cream
6. RAL 8028 Terra brown
7. RAL 8003 Clay brown
8. RAL 7040 Window grey
9. RAL 7035 Light grey
10. RAL 7016 Anthracite grey
11. RAL 6005 Moss green
12. RAL 5014 Pigeon blue
13. RAL 5010 Gentian blue
14. RAL 3004 Purple red
15. RAL 3003 Ruby red
16. RAL 3000 Flame red
17. RAL 1015 Light ivory
Elegance and detailed accuracy

Decograin** is available in four naturally-lookling timber designs and one anthracite design with a metallic effect. An embossed wood grain gives it an authentic timber character.

1. Golden Oak: medium brown, golden yellow oak design
2. Dark Oak: walnut-coloured oak decor
3. Night Oak: dark, intense oak design
4. Winchester Oak: natural-coloured knotty oak design
5. Titan Metallic CH 703: anthracite with a metallic effect

Please note:

The colours and surface finishes shown are subject to the limitations of the printing process and cannot be regarded as binding. Dark colours should not be used for doors that are exposed to the sun, as an increased material expansion may impair the door's function.

* Not available for Thermo65 styles 410, 430, 450.
** Not available for Thermo65 styles 100, 410, 430, 450 and Thermo46 styles 100, 200, 400. Glazing frames in matching colours for Thermo46 styles 020, 025, 030, 040.
Customise your entrance area

For Thermo65 and Thermo46 entrance doors, you can order the door leaf and frame in different colours to fit your own individual taste. Combine the standard colour Traffic white RAL 9016, 16 preferred colours or 5 Decograin decors to perfectly match your home and decorating style.
Entrance doors in harmony with internal doors

Design your Thermo65 entrance door in Decograin Golden Oak, Dark Oak or Titan Metallic CH 703 on the inside to match your white internal doors. All door styles are available with rounded frames, as well as the side elements, in the Decograin decors listed, on the inside in Traffic white RAL 9016 – on request with side elements in the same colour combination. This way, you can enjoy your perfectly matching entrance door and internal doors.

Please note:

The colours and surface finishes shown are subject to the limitations of the printing process and cannot be regarded as binding. Dark colours should not be used for doors that are exposed to the sun, as an increased material expansion may impair the door’s function.

* Not available for Thermo65 styles 100, 410, 430, 450 and all Thermo46 styles.
