

ICON

— STEEL SIDE HINGED RANGE —

Made to Measure Steel Side Hinged
Garage Doors with Strength

GARAGEDOORS**ONLINE**
THE UK'S PREMIER ONLINE GARAGE DOOR SUPPLIER

Built for strength, made to measure

The GDO Icon range of steel side hinged garage doors offers a higher specification over our Classic range, using reinforced internal door panel bracing for a more stable and secure overall construction.

These are single skin, uninsulated steel doors, ideal for garages used for parking, storage or as a workshop where you want a rigid, secure door without paying for insulation. Each doorset arrives fully assembled, with the door leaves pre hung in a factory fitted frame, so installation is straightforward for any competent tradesperson or DIYer.

2750mm

Made to measure up to 2750mm wide and 2340mm high

32

Colour options, with matching frame colour available

50/50

Split as standard, or 1/3 2/3 on most designs

Pre framed

Handles, hinges and locking all included

3D adjustable hinges, black as standard, allow easy alignment of the leaves on site. Colour coded hinges are available on request.

Concealed shoot bolts at the top and bottom of the inactive leaf hold the door securely in place.

Adjustable keeps allow easy alignment of the leaf position for a precise fit.

Optional 15mm aluminium threshold. A level floor is essential for the best results.

Black lever handle, latch and deadlock as standard, with an internal thumb turn. Chrome or white handles at no extra cost.

An adjustable keep gives precise latching every time the door is closed.

Rubber seals to the door leaf and frame help keep out the weather, dust and debris.

A gasket between the door leaf frame and panel helps seal the door against the elements.

Steel bracing to the rear of the door panels for a more rigid final door leaf. Shown from inside, with a matching pedestrian door alongside.

Door stays are an optional extra, especially relevant on 50/50 split doors that are opened often or exposed to wind.

Chrome or white lever handles can be chosen at no extra cost.
* Outward swinging as standard, inwards on request and extra cost.

Ribbed designs

The ribbed designs are deliberately simple, so the door colour usually becomes the more important decision. Vertical ribs suit most properties, including listed buildings and areas with planning restrictions on appearance, while the wider and horizontal ribs give a cleaner, more contemporary look. All are available as a 50/50 or 1/3 2/3 split.

GDO Icon Standard Vertical

Narrow vertical ribs for a more traditional visual appearance.

GDO Icon Medium Rib Vertical

Medium vertical ribs. A very popular choice in all sizes and colours.

GDO Icon Wide Rib Vertical

Wide vertical ribs for a flatter, cleaner door face.

GDO Icon Standard Horizontal

Narrow horizontal ribs, a neat look on modern homes.

GDO Icon Medium Horizontal

Medium horizontal ribs that sit well with most brickwork.

GDO Icon Wide Rib Horizontal

Wide horizontal ribs for a more contemporary appearance.

Feature designs

For a more distinctive look, the Millennium designs pair the Icon construction with a long D bar handle, while the Grendon and the raised panel designs give a traditional finish that works well on older properties.

GDO Icon Millennium Vertical

Medium vertical ribs with a long D bar handle.

GDO Icon Millennium Horizontal

Wide horizontal ribs with a long D bar handle.

GDO Icon Grendon

Vertical ribs under a gently arched top line, a traditional look.

GDO Icon Georgian

Classic raised Georgian style panels.

GDO Icon Pytchley

Raised panels with arched top panels.

* The GDO Icon Georgian and GDO Icon Pytchley are not currently available to order through our online shop. Please call us on 01926 463 888 to discuss these designs.

Designs with windows

Top windows bring natural light into the garage, which makes a real difference if it doubles as a workshop, gym or utility space. Every window sits in a raised outer frame for a more traditional, finished look, and each design is built around a set door split so the window proportions stay balanced from the driveway.

GDO Icon Walgrave Standard Rib Vertical with Windows

50/50 split with narrow vertical ribs and a raised frame 8 pane top window on each leaf. Minimum width 1600mm.

GDO Icon Walgrave Standard Rib Vertical with Windows

1/3 2/3 split with narrow vertical ribs and three raised frame top windows. Plain or Stockton Cross design.

GDO Icon Chester Medium Rib Vertical with Windows

1/3 2/3 split with medium vertical ribs and three raised frame top windows. Plain or Stockton Cross design.

Window designs

Plain

Stockton Cross

8 pane, 50/50 only

Each window is set in a raised outer frame. The 1/3 2/3 designs have three windows, two on the wider leaf and one on the narrower leaf, in a plain or Stockton Cross design. Glass is supplied in clear or stippled glazing. Window inserts are white as standard, or can be colour matched to the door at extra cost.

Matching pedestrian doors

If your garage has a side or rear entrance, the Icon range also includes matching pedestrian doors. They are built to the same specification, panel profile and colour as the main garage door, so everything looks consistent around the property.

Shown from inside, with the steel panel bracing and lever handle.

Made to measure, with a steel sub frame as standard

Every Icon pedestrian door is made to measure at no extra cost and supplied fully assembled in a factory fitted steel sub frame, finished in the same colour as the door. Simply choose the overall width and overall height including the frame, the handing and the colour.

- Made to measure up to 1320mm wide and 2340mm high
- Steel sub frame as standard, factory fitted and colour matched
- Reinforced steel bracing to the rear of the door panel
- Lever handle, latch and deadlock with an internal thumb turn
- Rubber seals built into the frame, with a threshold supplied
- 3D adjustable hinges for easy alignment on site
- Left or right hand opening, outward as standard
- The same 32 colour options as the garage doors

Matching designs are available for the Standard, Medium and Wide Rib ribbed doors, in vertical and horizontal, and for the Millennium range. Where insulation isn't needed, they also make a good side door alongside other garage door types.

Measuring and ordering

Overall sizes. Order the overall width and overall height, including the factory fitted frame. Always remember to allow for some fitting tolerance when ordering.

Door split. Choose a 50/50 split, or a 1/3 2/3 split where the design allows. Window designs come with a set split.

Handing. Choose which leaf opens first, as viewed from outside.

Clear swing space. Doors open outwards as standard, so make sure the ground in front of the garage is level and clear for the leaves to swing freely.

Level floor. A level floor is essential for the best results, especially if you add the optional threshold.

Checked before production. Every made to measure order is checked, and we confirm the drawings and specification with you before manufacture.

32 colour options

Every Icon door, frame and matching pedestrian door can be finished in any of the 32 colours below, so there is no need to paint the door or frame once it is fitted. Traffic White, Anthracite Grey and Jet Black are available at no extra cost. All other colours carry a small additional charge.

 NO EXTRA COST			
Traffic White RAL 9016	Signal Grey RAL 7004	Dusty Grey RAL 7037	Traffic Grey RAL 7042
			
Light Grey RAL 7035	Window Grey RAL 7040	Basalt Grey RAL 7012	Pebble Grey RAL 7032
			 NO EXTRA COST
Iron Grey RAL 7011	Slate Grey RAL 7015	Graphite Grey RAL 7024	Anthracite Grey RAL 7016
		 NO EXTRA COST	
Agate Grey RAL 7038	Black Grey RAL 7021	Jet Black RAL 9005	Steel Blue RAL 5011
			
Cobalt Blue RAL 5013	Sky Blue RAL 5015	Gentian Blue RAL 5010	Signal Blue RAL 5005
			
Light Blue RAL 5012	Moss Green RAL 6005	Fir Green RAL 6009	Chartwell Green BS 14 C 35
			
Ruby Red RAL 3003	Traffic Red RAL 3020	Chocolate Brown RAL 8017	Clay Brown RAL 8003
			
Mahogany Brown RAL 8016	Light Ivory RAL 1015	Cream RAL 9001	Traffic Yellow RAL 1023

* Colours shown are a guide only, as printed and on screen colours can vary from the factory finish. Hinges are black as standard, with colour coded hinges available on request. The frame can be white or finished to match the door colour.

GARAGEDOORS**ONLINE**

THE UK'S PREMIER ONLINE GARAGE DOOR SUPPLIER

The smarter way to buy your garage door. Established in 2007, GarageDoorsOnline was the first true UK online specialist for configurable garage doors, and we are part of a long established group of building product specialists trading since 1986.

Why buy from us

Our own GDO brand

The Icon range sits alongside our GDO Classic steel doors and our insulated side hinged doors, giving you a clear choice of specification and budget.

Real technical help

Our specialist staff have over 30 years of individual industry experience, so you can talk through sizes, fitting and options before you order.

Trade accounts

Competitive trade pricing for installers and builders, with drawings and technical information to support your projects.

Made to measure as standard

Icon doors are made to your overall sizes at no extra cost, and every made to measure order is checked with drawings confirmed before production.

Clear online pricing

Configure your door online with transparent pricing, order 24/7, and have it delivered nationwide.

Support after you order

A dedicated line for order tracking and warranty questions, so you always know where your door is.
