

PEDESTRIAN GATES · STEEL SIDE GATE

# Medium Rib Horizontal Pedestrian Gate

Rigid double-skinned steel. 32 colour options. Made to measure for the side of your home.

**Rated Excellent**

UK's No.1 retailer of garage doors

# A bolder, more architectural side gate

The Medium Rib Horizontal side gate offers a bolder, more architectural look. Wider horizontal sections and fewer ribs give a calmer, less busy face. Rigid double-skinned steel construction means it feels reassuringly solid and stands up well in exposed locations. With a wide colour choice and made-to-measure sizing, it works particularly well on contemporary homes and clean-lined landscaping.

## KEY FEATURES

- Broader horizontal ribs for a stronger design statement
- Rigid double-skinned steel leaf and posts, made-to-measure widths
- 32 durable powder-coated colour finish options
- Custom widths from 800mm to 1300mm overall

**Made to measure**

800mm to 1300mm · 32 colours

# Built in steel, and built to last

Timber needs regular maintenance and suffers swelling, shrinking and movement. Aluminium avoids the upkeep but lacks the solid, weighty feel and dents more easily. The GDO gate uses fully steel, double-skinned construction, so it behaves like a proper external door rather than a lightweight garden gate. It stays square and aligned over time, pairing a tough powder-coated finish with entrance-door-level colour choice.

## TIMBER

Regular maintenance.  
Swells, shrinks and moves  
with the seasons.

## ALUMINIUM

Low upkeep, but lighter in  
feel and dents more easily.

## GDO DOUBLE-SKINNED STEEL

Solid and weighty. Stays  
square and aligned, with  
door-level colour choice.

### 01

## Modern styling

Broader horizontal ribs and fewer lines create a cleaner, architectural look that pairs with contemporary properties, modern cladding and minimalist landscaping. Matching steel posts and crisp framing give a built-in feel between brick or block piers.

### 02

## Solid construction

The double-skinned leaf, steel on both faces, increases rigidity, reduces flex and resists impact and tampering. Unaffected by moisture, it will not swell or shrink, holding its shape and alignment for smoother everyday use.

# 32 powder-coated colours

A far wider palette than the usual black or single grey. The finish is applied to the entire visible gate, both faces of the leaf and both posts, so it coordinates with your garage door, front door, windows or cladding. Hard-wearing and low maintenance: just wash it down.

# Full specification

Gate leaf	Double-skinned pressed galvanised steel, with medium-width horizontal ribs on both inside and outside faces.
Frame / chassis	Aluminium chassis, rigid and corrosion resistant.
Hinges	Black aluminium, with up to 15mm of adjustment.
Handle & lock	Black aluminium lever / lever handle with a stainless steel single-point deadbolt, key operated from both sides.
Opening direction	Inward (standard) or outward.
Sizes	Made to measure overall widths including posts, 800mm to 1300mm.
Heights	1200mm (4ft) and 1800mm (6ft).

## Made to measure

Produced to the dimensions you specify. Overall widths, including posts, run from 800mm to 1300mm.

**1200mm**

4ft · a lower, open feel

**1800mm**

6ft · privacy and security

## What you get

- Medium-ribbed horizontal double-skinned galvanised steel gate leaf, fully finished in your chosen colour
- Galvanised steel box-section posts (pair), one with a profiled closing edge on the latch side
- Black aluminium adjustable hinges, up to 15mm adjustment
- Black aluminium lever / lever handle and stainless steel deadlocking single-point lock

## Four choices, and we make the rest

01	02	03	04
<b>Size</b>	<b>Colour</b>	<b>Handing</b>	<b>Opening direction</b>
Overall width including posts, 800mm to 1300mm. Height 1200mm or 1800mm.	Choose from 32 hard-wearing powder-coated finishes.	From the non-hinged side: left hand = hinges left, handle right; right hand is the reverse.	Inward as standard, or outward where there is an obstruction.

### MEASURING NOTE

Your ordering width includes both posts and the gate leaf, with no fitting tolerances added, so please allow your own clearances. For example, a 1000mm brick-to-brick opening with 5mm each side means you order 990mm.

## Installation

Suitable for a competent DIYer or general tradesperson. Fix the two galvanised steel box-section posts first, level, plumb and correctly spaced. Hang the leaf, fine-tune with the adjustable hinges, then fit the handle and lock. The gate must be fixed to a sound, solid structure: brick, block or steel posts.
