2 Crown Composite Garage Doors

Composite is the ideal material for a garage door. Made from the same material as ocean-going yachts, the finish of composite garage doors requires minimal maintenance and is durable and resilient in everyday use. From the front of the door, all you see is edge-to-edge and seamless composite.

Edge-to-edge composite to the front of the door and a galvanised steel chassis to the rear to add rigidity and fixing points for the canopy lifting gear.

Optional Pre-Fitted Frames

All doors are available with the option of a pre-fitted steel frame that provides simple installation and a stable platform for door operation.

Frames have an exterior powder coating available in white, brown or black. Please specify the colour required when ordering. Woodgrain doors are also available with a flat coloured frame that tones-in with the woodgrain shade of the door.

Product Guarantees

GDO Doors are manufactured to the highest standards and your garage door only leaves the factory after a thorough quality and testing process.

In the unlikely event of a warranty claim, please contact your dealer that installed your garage door, and supply them details of the serial number on the side of the door. Your dealer will supply further details of your claim with proof of purchase, to the Warranty Department at GDO Doors.

1. Warranty Period.

A warranty covering the safe and reliable operation of the GDO Doors garage door for a period of 10 years from the date of purchase is given to the original purchaser.

The purchaser is given a 2 year warranty for all springs; tracks; rollers; and hinges for normal use, whereby normal use constitutes no more than 5 operations (open/close) per day. We recommend that they are inspected annually by a competent

engineer. The warranty period for replacement parts is 6 months or for the remainder of the warranty period.

2. Requirements.

Warranty is valid in the country where the garage door was purchased.

The product must have been purchased through one of our authorised partners and a serial number and receipt of purchase provided.

The warranty only covers damage to the garage door.

3. Performance.

During the warranty period we will rectify defects to the GDO product that can be proved to be material or manufacturing faults. At our discretion we will either exchange; repair; or reduce the price. We will not accept any costs for dismantling; installation; or delivery.

The warranty does not cover damage caused by:

- Improper transport and fitting.
- Repairs by non-qualified or non competent individuals.
- External influences such as fire, water, alkaline solutions, acid, bird droppings or abnormal atmospheric pollution.
- The use of non GDO Doors parts without the approval of the manufacturer.

Additional Information:

- It is a fundamental condition of this guarantee that the product has been installed, maintained and serviced correctly and is used solely for the purpose for which it was designed.
- Incorrect installation, maintenance and service will invalidate this warranty.
- The door must be kept in a clean condition and free from impact damage.
