Welcome

Harrowden in white

Chester Horizontal Small Rib with Waterford windows

Vertical with “SmartPass” - In Anthracite Grey

01926 463888  www.garagedooronline.co.uk  05/2020
Our doors are all about great products at everyday pricing. Built to last and packed with features that make them a pleasure to use, they are exceptional for their good value and striking good looks.

This brochure showcases an extended range of doors that are sure to make an impact. CE marked and manufactured under our ISO 9001 quality systems, you can be sure of safety, reliability and quality.
Stylish Choices

Up and over doors in an array of designs made from steel, timber and composite are complemented with the many styles also available in side hinged opening action. Insulated aluminum and steel roller doors complete the range.

Windows add a further option to personalise a design to your taste, whilst automation is a great addition to open your door at the touch on the remote control.

Our “smartpass” up and over doors have a built in pass door - perfect for those times when you want access to your garage without a separate side door. It opens just like a normal up and over door when you need it and opens just like a side door when you don’t!

Traditional side opening doors are brought right up to date with all round lip seals and secure locking.
Composite is an incredibly strong, dent resistant modern composite laminate with a better strength to weight ratio than steel. The door face is devoid of joints, seams, rivets or fastenings to detract from its good looks.

Roller garage doors made with insulated aluminium slats or factory coated steel are an increasingly popular choice. The Roller 77 has powered remote control operation as standard and the Roller Steel has electric option as an option.

If you love the look of real timber our cedar range is the perfect choice.

Powerful, classy, reliable

Sprint
Automation for retractable doors gives a quiet smooth remote opening of your garage door.
Traditional side hinged doors are easy to operate and so simple. All our up and over styles are also available in side hinged configurations and also with matching personnel side entrance doors.

Steel Side hinged garage doors are available 50:50 up to 10’0” wide.

2/3:1/3 opening up to 9’0” wide.

Horizontal rib opening up to 8’0” wide.

Steel bracing gives side hinged doors a robust feel in every day use. The standard configuration shown above uses twin latches on the active leaf and shoot bolts on the inactive leaf. Hold-open stays are available as an option.

Made to last

The internal lock handle.

Side hinged, personnel and smart pass doors employ high grade corrosion protected hinges for smooth operation and elimination of leaf “sag”.

Standard doors have top and bottom cable operated lock latches to the active leaf and shoot bolts to the inactive leaf for dependable security.

All doors feature a strong sub-chassis with bracing plates to ensure rigidity of the door panel.

The natural beauty of timber shines through on our range of up and over doors. Benefiting from the same excellent opening mechanism, locking and strong steel chassis, these doors add a classic touch to any home.

If you are fitting doors side by side, let us know and we'll craft a pair finished to a similar shade - remember wood is a natural material and no two doors are alike!

**Monarch** (also available in horizontal)

The Monarch, has exceptional durable properties due to an innovative ply to ply treatment.

The Monarch is also a Marine Plywood substitute, with a great environmental story. Plantation Poplar Plywood modified to make it as durable as tropical marine plywood.

The product range is available with either FSC® or PEFC certification.

**Bambugh** (shown in Light Oak)

**Fairbourne** (shown in Light Oak)

Doors with these icons are also available as side hinged.

Doors are available basecoat treated ready for staining to a shade of your choice or fully finished in the colours left.

**Colour Options**

- Light Oak
- Chestnut
- Antique Oak
- Mahogany
- Ebony
- Walnut

Open For Infil

During the warranty period we will rectify defects to the product that can be proved to be material or manufacturing faults. At our discretion we will either exchange; repair; or reduce the price. We will not accept any costs for dismantling; installation; or delivery.

The warranty does not cover damage caused by:
- Improper transport and fitting.
- Repairs by non-qualified or non competent individuals.
- External influences such as fire, water, alkaline solutions, acid, bird droppings or abnormal atmospheric pollution.
- The use of non approved parts.

Additional Information:
- It is a fundamental condition of this guarantee that the product has been installed, maintained and serviced correctly and is used solely for the purpose for which it was designed.
- Incorrect installation, maintenance and service will invalidate this warranty.
- The door must be kept in a clean condition and free from impact damage.

1. Warranty Period.
A warranty covering the safe and reliable operation of the garage door for a period of 10 years from the date of purchase is given to the original purchaser.

The purchaser is given a 2 year warranty for all springs; tracks; rollers; and hinges for normal use, whereby normal use constitutes no more than 5 operations (open/close) per day. We recommend that they are inspected annually by a competent engineer. The warranty period for replacement parts is 6 months or for the remainder of the warranty period.

2. Requirements.
Warranty is valid in the country where the garage door was purchased.

The product must have been purchased through one of our authorised partners and a serial number and receipt of purchase provided.

The warranty only covers damage to the garage door.

Product Guarantees
Our products are manufactured to the highest standards and your garage door only leaves our factory after a thorough quality and testing process.

In the unlikely event of a warranty claim, please contact your dealer that installed your garage door, and supply them details of the serial number on the side of the door.
