1) Clear passage dimensions for up-and-over door with stepped threshold. For an up-and-over door without threshold (continuous flat floor line) the passage height increases by 30 mm.

2) The following applies for style 905: clear passage height = BRH – 135 mm; all other up-and-over doors BRH – 120 mm

### Deviations in styles with panels due to up-and-over door size

#### Note:

The proportions of the doors shown on the following pages generally correspond to the size BR 2500 × 2125 mm. For other up-and-over door sizes, the views can deviate.
