Explore the differences

SeceuroGlide | LT Standard, Insulated Garage Door

SeceuroGlide | Original Secure, Insulated Garage Doors

Aluminium End Plate

Standard, aluminium cast end plate.

Standard Locking System

A 70mm axle alongside plastic and steel locking straps secure your standard SeceuroGlide LT.

Endlocks

Crimped and stapled endlocks used to secure the curtain in operation.

Unique Locking System

Both the Original and LT have auto locking as standard for extra security, preventing the door from being opened by an intruder. Central locking provides a better running of the door.

SECURE

VERY SECURE

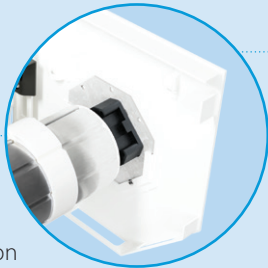

SeceuroGlide | Excel

High Security, Insulated Garage Doors

Steel End Plates

Galvanised steel end plates on the **SeceuroGlide Original & Excel** provide a sturdier design and increased security when compared with aluminium end plates.

Strength & Security

100 mm fluted axle, extruded aluminium hinges and top rail, provide greater strength when the door is in operation and in the locked position.

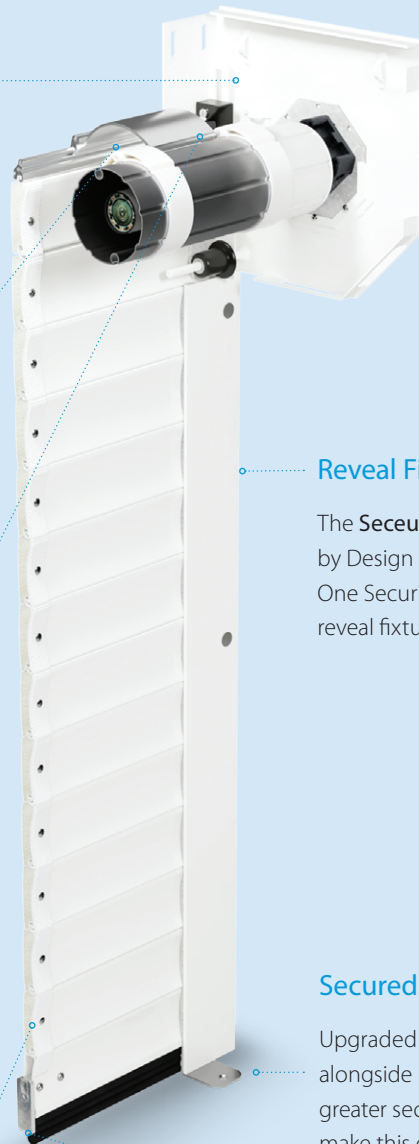

Locking System

The **Excel** comes standard for greater security. The door is prevented from being lifted. Galvanised locking blocks ensure the door is secure during operation.

Security & Noise Reduction

Webbing on each side of the curtain provides additional security whilst also reducing the noise made by the curtain for smooth, ultra-quiet operation.

Reveal Fit

The **SeceuroGlide Excel** boasts Secured by Design and insurance approved Level One Security Rating for internal face and reveal fixtures.

Secured by Design

Upgraded 90 mm channels as standard, work alongside locking bottom slats to provide greater security, one of many features which make this door accredited by Secured by Design, even on between fit installations. Locking bottom slat on the **SeceuroGlide Excel** is designed to prevent the door being pushed out of the guides by an intruder.

ULTRA SECURE

*Secured by Design and LPCB available on certain SeceuroGlide Original specifications only.

The SeceuroGlide Difference

Quality and Value for Money: By choosing a SeceuroGlide Roller garage door, you are investing in the most secure garage door that will last for years to come, avoiding costly repairs or replacements in the future. Compare the differences and it's clear to see that you get what you pay for; a quality door that delivers outstanding value for money.

		Low-Cost / Budget Alternatives
CHOICE		
Customisation	Bespoke powder coating finishes to match modern windows and composite doors	Limited range of colours
Hand Transmitters	Choice of 2 hand transmitters from a wide selection included with every door	One transmitter with little or no choice
Control System	Choice of market leading control systems including SeceuroSense Plus and Somfy	Unbranded control system
Home Automation	Home automation compatible and mobile phone connectivity available	Not compatible with home automation
SECURITY		
Technology	State of the art rolling code technology and holiday mode	Single frequency signal that can easily be cloned to open the door
Police Approval	Secured by Design on the Excel and Original*	No official police approval
Loss Prevention Certification	SeceuroGlide Excel was the UK's first roller garage door to achieve Loss Prevention Standard 1175	No official security rating
	SeceuroGlide Original certified to LPS2081 for internal face fixing*	
SAFETY		
Anti-fallback	Anti-fallback safety device fitted as standard	No anti-fallback device
Fail Safe	Self-checking optical safety system with triple chamber rubber edge	Single chamber rubber edge, less able to accommodate irregularities in the garage floor
CE Marking	CE Marked products that are compliant with safety legislation	Not CE marked
Lighting	LED courtesy light with optional supplementary lighting output	Typically a 15w cooker hood bulb
SERVICE & SUPPORT		
Nationwide Distributors	Installed nationwide by a trusted network of local specialist installers	Often supplied direct through regional installers
Quality	Quality installation from formally trained fitting teams	Inconsistent installation practices and variable levels of training
PEACE OF MIND		
Warranty	5-year warranty with free extended 7-year automation warranty on registration	Typically 1-year, with extended warranty only available for a fee
Heritage	The UK's leading manufacturer of roller doors for more than 35 years	No proven track record in manufacturing and little warranty back-up
Reputation	A name you can trust with a strong reputation throughout the garage door industry	Mixed reputations and negative publicity online and in the media
Professionalism	An active member of the Door Hardware Federation	No industry association memberships
Financial Security	Financially secure as part of a multi-national group of companies	Record of insolvency and start-ups rendering warranties null and void
Quality	ISO9001 accredited quality management system	No quality management system
Literature	Premium brochure with compliance and accreditation information	Limited or no product literature
ENVIRONMENTAL IMPACT		
Environmental Management	ISO14001 accredited environmental management system	No environmental management system
Packaging	Eco-friendly packaging	N/A

*Secured by Design and LPCB available on certain SeceuroGlide Original specifications only.
