

Seceuroglide Roller Garage Door Colour Chart

Colour options for the LT, Classic and Excel insulated roller doors

Every Seceuroglide insulated roller garage door sold through Garage Doors Online is made to measure and available in a choice of 21 standard factory painted colours at no extra cost. This colour chart shows every one of those finishes on a roller door so you can compare the options side by side, from Brilliant White and Anthracite Grey RAL 7016 through to Chartwell Green, Burgundy and painted Rosewood. The final page shows the 32 RENOLIT laminate foil finishes also available on these doors.

Each colour is labelled with its name and RAL or BS reference where one applies. Click any door image to view the full [Seceuroglide insulated roller door range](#) in our online shop.

The three Seceuroglide models

Seceuroglide LT

Double skinned, foam filled 77mm aluminium slats. A lighter specification door, purpose made up to 5200mm wide.

Seceuroglide Classic

Twin walled insulated slats with continuous webbing for quieter running. Secured by Design accredited as standard, purpose made up to 5590mm wide.

Seceuroglide Excel

Up-rated locking, 90mm guides and a 100mm fluted axle. Certified to LPS 1175 Level 1 with Secured by Design police preference, made to measure up to 5200mm wide.

White, cream and light grey

Brilliant White

RAL 9016

A clean, bright white and the natural match for white uPVC windows, fascias and doors.

Available on: Seceuroglide LT, Classic and Excel

Ivory

RAL 1015

A soft cream that sits comfortably on rendered, stone and period style properties.

Available on: Seceuroglide LT, Classic and Excel

Light Beige

BS 08B17

A pale stone colour, well suited to cream render and buff or sandstone brickwork.

Available on: Seceuroglide LT, Classic and Excel

Agate Grey

RAL 7038

A light grey with a warm undertone, a softer choice alongside grey windows.

Available on: Seceuroglide LT and Excel (Light Grey on the Classic)

Grey finishes

Window Grey

RAL 7040

A mid grey that pairs well with grey uPVC and aluminium window frames.

Available on: Seceuroglide LT, Classic and Excel

Grey Aluminium

RAL 9007

Grey Aluminium

A silver grey metallic finish that gives a modern, contemporary look.

Available on: Seceuroglide LT, Classic and Excel

Slate Grey

RAL 7015

Slate Grey

A deep blue grey, a slightly lighter alternative to anthracite.

Available on: Seceuroglide LT, Classic and Excel

Graphite

Standard colour

Graphite

A dark charcoal grey with a warm undertone, ideal for modern homes.

Available on: Seceuroglide LT, Classic and Excel

Dark grey, black and blue

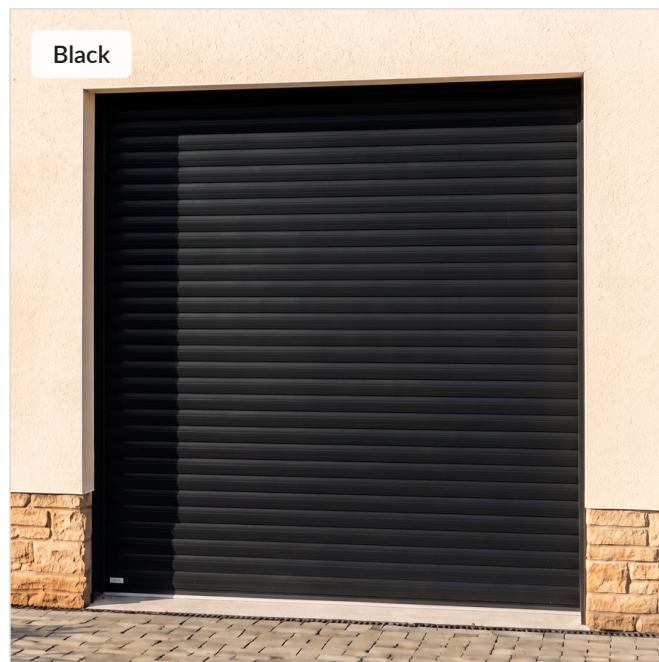

Anthracite Grey

RAL 7016

A dark grey to match anthracite grey windows, composite doors and fascias.

Available on: Seceuroglide LT, Classic and Excel

Black

RAL 9005

A deep black for a strong frontage, works well with black windows and gates.

Available on: Seceuroglide LT, Classic and Excel

Navy Blue

RAL 5011

A dark steel blue that looks smart against white trims and light brickwork.

Available on: Seceuroglide LT, Classic and Excel

Duck Egg Blue

BS 16C33

A light blue finish suited to cottage, coastal and heritage style homes.

Available on: Seceuroglide LT, Classic and Excel

Green and red finishes

Chartwell Green

Chartwell Green

BS 14C35

A pale grey green, a popular heritage shade for traditional properties.

Available on: Seceuroglide LT, Classic and Excel

Moss Green

Moss Green

RAL 6005

A deep traditional green, a good fit for period and rural properties.

Available on: Seceuroglide LT, Classic and Excel

Fir Green

Fir Green

RAL 6009

A very dark green that reads almost black in low light.

Available on: Seceuroglide LT, Classic and Excel

Burgundy

Burgundy

RAL 3004

A rich dark red that complements red brick and Victorian style homes.

Available on: Seceuroglide LT, Classic and Excel

Brown and painted wood effect finishes

Brown

RAL 8014

A warm mid brown that sits well with natural brick and timber features.

Available on: Seceuroglide LT, Classic and Excel

Dark Brown

RAL 8019

A dark brown to match brown uPVC window frames and timber doors.

Available on: Seceuroglide LT, Classic and Excel

Golden Oak

Painted wood effect

A warm golden oak tone, a popular match for golden oak uPVC windows.

Available on: Seceuroglide LT, Classic and Excel

Irish Oak

Painted wood effect

A lighter mid oak tone for a natural timber style appearance.

Available on: Seceuroglide LT, Classic and Excel

Rosewood painted wood effect

Rosewood

Rosewood

Painted wood effect

A deep red brown wood effect, a good match for rosewood uPVC windows and doors.

Available on: Seceuroglide LT, Classic and Excel

Choosing your colour

Colours shown are a guide only. Screens and printers vary, so if matching existing windows or doors is important please ask us about a colour sample before ordering.

Want a laminate finish instead? Turn the page to see the 32 RENOLIT foil finishes. Bespoke RAL or BS powder coating can be quoted on the Classic and Excel.

Matching the colour to your home

Matching windows and doors

Brilliant White, Anthracite Grey RAL 7016, Black and the painted oak finishes are the usual choices when matching uPVC or aluminium windows, front doors and fascias.

Period and rural properties

Ivory, Light Beige, Chartwell Green, Moss Green and Burgundy tend to suit older brick, stone and rendered homes better than bright white or very dark greys.

Dark colours in direct sun

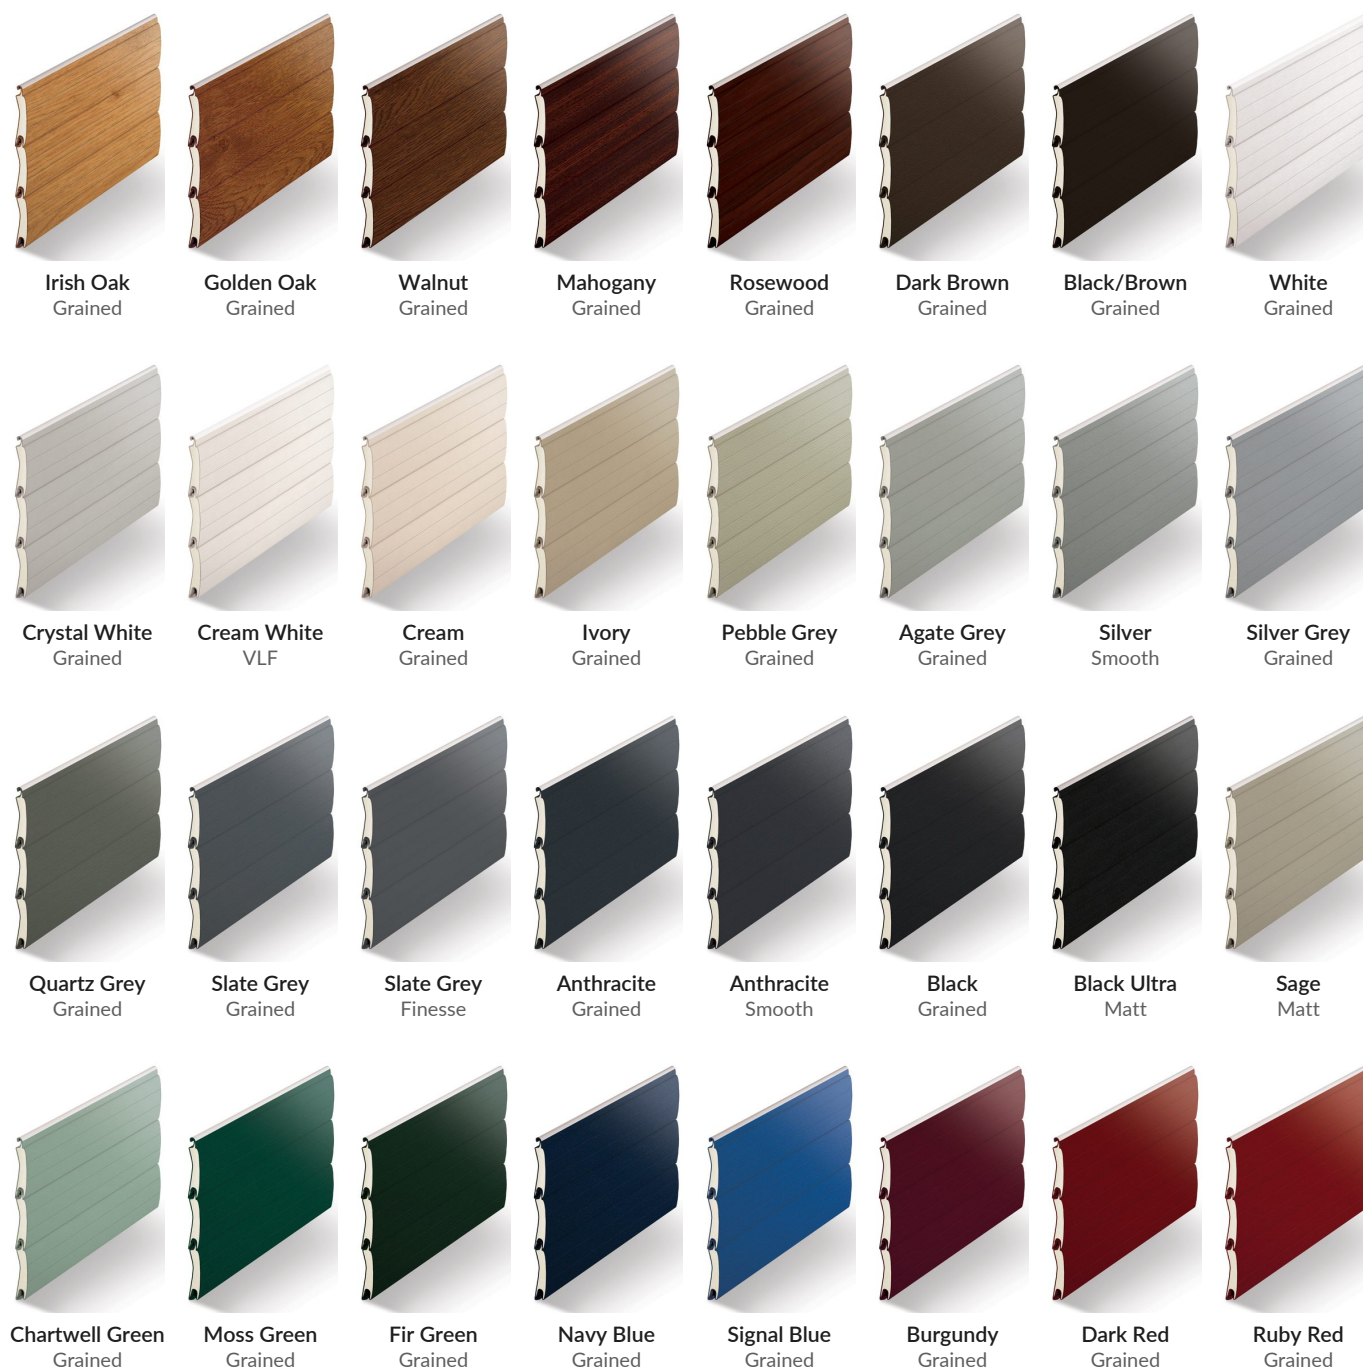

Dark finishes absorb more heat. On doors facing strong afternoon sun some thermal expansion of the curtain is normal, so it's worth bearing in mind on south or west facing garages.

Seceuroglide models compared

	LT	Classic	Excel
Insulated curtain	77mm foam filled slats	Twin walled foam core slats	77mm foam filled slats
Maximum width	Up to 5200mm	Up to 5590mm	Up to 5200mm

Bespoke RAL or BS colour	No	On request	On request

RENOLIT laminate foil finishes

As well as the standard painted colours, the Seceuroglide LT, Classic and Excel can be supplied in 32 RENOLIT laminate foil finishes. These are the same style of foils used on many uPVC windows and doors, so they're a good option when you want a close match to existing frames. RENOLIT finishes carry a 10 year finish warranty and matching uPVC trims are available.

RENOLIT finishes are an optional upgrade and are not available on the Seceuroglide Manual. Please call or email us for a price on your chosen finish and door size. Slat samples are shown as a guide only, so ask us about a physical sample if you need an exact match.
